The safety and well being of your pet is our top priority. Every effort will be taken to make your pets grooming experience as pleasant as possible.

Sometimes grooming can expose a hidden medical problem or aggravate a current one.

If your pet is matted or aggressive, there is a greater risk of injury and stress.

De-matting and temperament will require a groomer's professional opinion and will be charged a fee accordingly. If the matting is too severe or if temperament is too much of a risk for either dog or groomer a vet visit will be recommended.

Problems happen occasionally during or after grooming such as nicks, clipper irritation and mental stress, most notably in senior dogs, dogs with impairments, aggressive behaviour and clipping double coated breeds. In the best interest of your pet, we request permission to seek veterinary care should it become necessary.

Rabies is required to be up to date as a public health vaccine, other vaccines are optional, however we cannot be held responsible for exposure to unvaccinated animals.
